### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or suggest a releasable connection between two adjoining body skin parts of a vehicle body fitted together along a joint and the body skin parts being provided with inwardly bent, projecting flanges oriented in the same direction, in a common connection area such that the flanges rest against one another in regions in the common connection area and the releasable connection also being comprised of a receiving device comprising an approximately plate-shaped web as well as two receiving sections arranged at a distance from one another and connected with the web, and a rotatable slotted sleeve is received within the receiving sections of the receiving device.

The German patent, DE-19,912,267, teaches a releasable connection, in combination with two adjoining body skin parts of a vehicle, however, the releasable connection as modified by Horntvedt, US5,590,975, or the Switzerland patent CH-444,414 will not result a receiving device comprising an approximately plate-shaped web as well as two receiving sections arranged at a distance from one another and connected with the web.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ernesto Garcia whose telephone number is 571-272-7083. The examiner can normally be reached from 9:30-5:30. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Daniel P. Stodola can be reached at 571-272-7087.
